

# Annesha Dey

Master's in Computer Application graduate, skilled in the art of coding and armed with a passion for turning lines of logic into functional software. Proficient in multiple programming languages and experience in tackling coding challenges head-on. Ready to contribute a fresh perspective and eager to dive into coding projects to create efficient and innovative solutions.

## EDUCATION

### MCA

#### Dr. BC ROY ENGINEERING COLLEGE

06/2021 - 06/2023

Durgapur, West Bengal

MCA

- Potato leaf disease detection using CNN

### BCA

#### Inspiria Knowledge Campus

06/2018 - 06/2021

Siliguri, West Bengal

BCA

- Examination portal using JAVA

### Higher Secondary

#### Raiganj Girls School

01/2017 - 01/2018

Raiganj, West Bengal

## WORK EXPERIENCE

### Campus Ambassador

#### Inspiria Knowledge Campus

09/2021 - 05/2021

Siliguri, West Bengal

Achievements/Tasks

- Worked in promoting the brand of the company and organized different events for the company

## SKILLS

Java

HTML

DBMS

Basic of Java Script

## PERSONAL PROJECTS

### Potato leaf disease detection using CNN (07/2022 - 04/2023)

- In this project, we used ready-made data from Kaggle. The images of potatoes are used as a dataset. In preprocessing, we used data augmentations to make our model more robust means we trained a model using some images(training data). We used a convolutional neural network which is a famous type of neural network architecture we found the outcome by fitting the model to training data.

## CERTIFICATES

### NPTEL (01/2023 - 04/2023)

Introduction to Internet of Things

### Mobile Mockup Design Competition

Got The 1st Position

### Sports (2019)

## LANGUAGES

Bengali

Native or Bilingual Proficiency

English

Full Professional Proficiency

Hindi

Full Professional Proficiency

## INTERESTS

Sports

painting

Travelling

cooking
