

# PUJA BANERJEE

## PROFESSIONAL PROFILE

I am passionate about Mathematics and enjoy teaching it as much as I have enjoyed studying it as a student. I began teaching as a private tutor in 2013 when I was still pursuing my undergraduate degree, and I believe that the experience has been crucial in forming my deep interest in choosing teaching as a future career for myself. I delight in crafting creative lesson plans to make the subject matter more exciting and accessible for my students. I am also personally invested in generating a love for Mathematics among my students, especially among young girls, who are unfairly stereotyped as being bad at math.

I have a strong track-record in improving students' test scores; looking at the exemplary performance of my students in the past few years, I now focus on preparing students for their board examinations. I am 'digitally literate' and easily transitioned into online teaching in the current year.

## PERSONAL INFORMATION

**Mobile:** +91 9748297329  
+91 9007858199

## TEACHING SKILLS

- Lesson Planning & Delivery
- Effective Communication
- Innovative Teaching Methods
- Patience & Understanding
- Ease with Online Teaching

## IT SKILLS

- Microsoft Office Suite
- Software: MATLAB, MathType

## EDUCATION

- |      |  |         |
|------|--|---------|
| 2019 | B.Ed. (Mathematics), Burdwan University, West Bengal                         | 82.30 % |
| 2017 | M.Sc. (Biomathematics), Jadavpur University, West Bengal                     | 66.30 % |
| 2014 | B.Sc. (Mathematics/ Honours), Presidency University, West Bengal             | 67.10 % |
| 2011 | Higher Secondary (10 + 2), West Bengal Council of Higher Secondary Education | 83.60 % |
| 2008 | School Certificate Examination, Visva-Bharati University, West Bengal        | 84.67 % |

## TEACHING EXPERIENCE

I have seven years' continuous experience of working as a private tutor. Most of my students have come from prestigious schools in Kolkata (West Bengal), such as South Point, La Martiniere for Girls, and G. D. Birla, to name a few. Consequently, I am well-acquainted with the course-requirements/ syllabi of different boards of education, including ICSE/ISC, CBSE, and WBCHE. Although I have experience in teaching Mathematics to primary, secondary, and higher secondary school students, currently I teach students exclusively from Classes 10, 11 and 12. I particularly enjoy teaching algebra, trigonometry, and differential calculus.

## FELLOWSHIPS/ CERTIFICATES

- Central Teacher Eligibility Test (CTET) Qualification Certificate by the Central Board of Secondary Education (both Paper I & Paper II), December 2018.
- Department of Science and Technology (Government of India) INSPIRE Fellowship, 2012- 2016.
