Objective

An Economics graduate with a foundation in Mathematics and Statistics, currently pursuing CFA Level 1, and an educator with over four years of experience. Having started teaching at a very young age. I am deeply passionate about empowering students and providing them with comprehensive support—whether through teaching to impart knowledge or through educational consulting and advising. Committed to guiding students toward achieving their academic and career goals, I aim to inspire confidence, foster growth, and create a positive impact in their journey toward success.

Experience

- Private Tutor – Science Mathematics and Economics (Grades 6 to 10)** - Present
Provide personalized tutoring in Science(Physics Chemistry Biology and Mathematics to students in grades 6 to10 in both ICSE and CBSE curriculum.
